**Start:** 11/19/2018 7:00:00 PM  
**End:** 11/19/2018 8:00:00 PM  
**Show Time As:** Tentative

The NTAA has requested an informational call w/power point presentation on the:

### **Proposed Amendments to the NSPS for the Oil & Natural Gas Source Category**

On September 11, 2018, EPA proposed targeted improvements to the 2016 New Source Performance Standards (NSPS) for the Oil and Natural Gas Industry, including amendments to the fugitive emissions monitoring requirements in the rule. The proposal would significantly reduce regulatory burden, saving the industry tens of millions of dollars in compliance costs each year. The changes also would streamline requirements and improve alignment between EPA's rule and existing state programs. For more information, refer to <https://www.epa.gov/controlling-air-pollution-oil-and-natural-gas-industry/proposed-improvements-2016-new-source>.

They will be interested in how this action may affect tribal interests.
